Navigation, Chart Functions

The following sections explain how the filters and charts work throughout the data warehouse

Filters

Filters for Contract Type and Start Biennium: Click on the arrow to select.

The screenshot shows a filter selection window. At the top, 'Contract Type' is set to 'Capital Budget / Construction, Grant, Grant/Loan Combination'. Below this, 'Start Biennium' has a dropdown arrow circled in red. The 'Purpose Group' section lists several options with checkboxes: 'Capital Budget / Construction' (checked), 'Client Services' (unchecked), 'Grant' (checked), 'Grant/Loan Combination' (checked), 'Interagency (Governmental) - Payable' (unchecked), 'Interagency (Governmental) - Reimbursable' (unchecked), 'Loan' (checked), and 'Other' (unchecked). A 'Select All' checkbox is at the bottom left. At the bottom right, 'Apply' and 'Cancel' buttons are circled in red. An arrow points from the text 'Click on the arrow to select.' to the 'Start Biennium' dropdown arrow.

Click on "apply" to close the window and re-run the reports with the new selections

Infrastructure and Recovery Act filters: Choices for each filter are All, Yes and No.

Infrastructure: = all contracts
Recovery Act:

Infrastructure: = just Recovery Act contracts

Recovery Act:

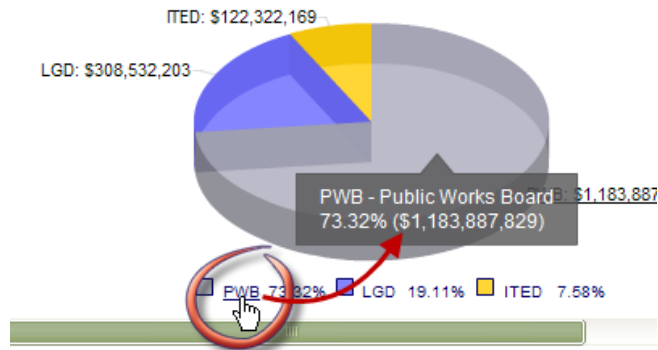

Infrastructure: = just Infrastructure contracts

Recovery Act:

Recovery Act contracts are funded by the American Recovery and Re-Investment Act.

Hover Over on Charts

Hovering over sections of a chart will display more information

How the Dashboard Charts Work

Combo pages include a summary grid and bar chart and a pie chart. The summary grid controls the filtering for the charts. If you click on a row in the grid the charts display data based on that row.

	Total
Grand Total	996,357,839
_No Purpose Group Assigned	2,804,967
Administration	14,108,945
Climate Change	4,345,960
Community Assistance	362,633,394

Contract Totals by Division

for Purpose Group: Climate Change

Total dollar amount: \$4,345,960

Additionally you can click on a section of the pie to see details about that section. The bar chart displays dollars by biennium for the contracts included in the grid.

Finding Legislative and Congressional Districts

For the legislative and congressional district charts there is a link to find the location of the districts throughout the state. Clicking on the small map to the right of the filters will open the Legislature's "find a district" map.

Infrastructure:

Recovery Act:

 Leg District Map

The Charts sections describe the data in each chart

Purpose Dashboard

The grid is summarized by purpose group. Purpose group data is based on primary purpose assigned to each contract. The hierarchy for drilling down through the bar and pie charts is Purpose Group, Division then Program.

Division Dashboard

The hierarchy for drilling down through the charts is Division, Purpose Group then Purpose. Grid is summarized by Division. Purpose group data is based on primary purpose assigned to each contract. See the data dictionary for definitions.

County

This bar chart summarizes contract amounts by county. Contract dollars are distributed based on the benefitting jurisdiction amounts entered for each contract.

Legislative District

This pie chart summarizes contract amounts by legislative district. Contract dollars are distributed based on the legislative districts of the benefitting jurisdiction amounts entered for each contract.

Congressional District

This bar chart summarizes contract amounts by congressional district. Contract dollars are distributed based on the congressional districts of the benefitting jurisdiction amounts entered for each contract.
